### ABOUT MYSELF

I'm a skilled Mobile Developer who has around **5 years of experience** with Android Mobile App development and 3 years of experience with Flutter Hybrid Mobile App development. I can be described as a highly skilled and rich experienced mobile expert with deep knowledge in programming, a professional attitude, good communication skills and the highest code quality. As a professional developer, I take great pride in making sure all of the projects are up to client's satisfaction, all deadlines are met and quality assurance is carefully considered. In addition, I promise to always deliver honest and speedy services...

### WORK EXPERIENCE

01/01/2024 – CURRENT Lahore, Pakistan

#### SENIOR FLUTTER DEVELOPER MAGNATEC SYSTEMS PVT LTD

As a Senior Mobile App Developer at Magnatec Systems Pvt Ltd,

- I worked upon on different applications, such as

a. **Cyan Care** | سیان کیر

b. **Cyan Doctor App**

I assumed a key role in overseeing the comprehensive lifecycle of mobile application development.

This encompassed meticulous attention to Application Structure, Development, and Deployment, ensuring seamless publication on platforms such as App Store and Google Play Console. Furthermore, I spearheaded API integration, Push Notification implementation, and facilitated **Agora Video/Audio Call** functionalities to enhance user experience. Additionally, I led efforts in Application Design Screens, focusing on user-centric design principles and incorporating features such as Payment Integration with **PayTab gateway**, Application Localization, and App Theming. Through adept technical prowess and strategic planning, I contributed to the delivery of high-quality, feature-rich mobile applications

01/04/2021 – 31/12/2023 Lahore, Pakistan

#### FLUTTER DEVELOPER THE BRAIN STORMERS ( AMERICAN LYCEUM)

Cyan Care | سیان کیر

---

Cyan makes the life easy for patient so they can easily approach and book appointment to doctors for their health-related problems. It also runs in **Saudi Arabia**.

**Link** <https://play.google.com/store/apps/details?id=com.app.cyan&hl=en>

---

## American Lyceum

American Lyceum is a versatile SLMS School app made with Flutter, featuring HR, Accountant, and Attendance management functionalities. It offers an easy-to-use interface for staff members to register for courses, track their progress, and manage their certificates. With its modern design, the app showcases the developer's proficiency in Flutter development.

**Link** <https://play.google.com/store/apps/details?id=com.americanlyceum.staff&hl=en>

---

## American Lyceum (Student)

American Lyceum International School offers students a distinctive learning community through an established tradition of educational innovation. We forge meaningful relationships and embrace global mindedness. We learn from one another and honor and celebrate our differences and our likenesses. We value Unity between school, family and community.

**Link** <https://play.google.com/store/apps/details?id=com.lyceumgroupofschools.student&hl=en>

---

## GPT Stories For Kids

Developed an interactive application utilizing the ChatGPT API to generate customized stories for children. The app allows users to select themes, characters, and settings, facilitating creativity and engagement in young readers through dynamic storytelling.

---

## British Lyceum

British Lyceum is an Online Educational Portal is providing an online education system where anyone from anywhere can get quality education

**Link** <https://play.google.com/store/apps/details?id=com.britishlyceum.blis>

---

## ETolling

Developed a robust application for managing e-tolling and parking services. The app streamlines payment processing, tracks toll and parking usage, and provides real-time updates to users.

**Link** [https://play.google.com/store/apps/details?id=com.connectslutions.e\\_tolling](https://play.google.com/store/apps/details?id=com.connectslutions.e_tolling)

---

## Food Delivery

This app facilitates both customer and restaurants, user can search his desired restaurant and can order food, resaurant will prepare customers' order, then user will go and collect the food without waiting and stading in queue. This idea was developed by keeping in view the circumstances after covid.

**Link** [https://play.google.com/store/apps/details?id=com.housecafe.android&hl=en\\_US&gl=PK](https://play.google.com/store/apps/details?id=com.housecafe.android&hl=en_US&gl=PK)

---
