=====

PROFESSIONAL SUMMARY

=====

Software Engineer specializing in scalable mobile and AI-driven systems with 2+ years of experience delivering production-grade applications.

Proven track record of building high-performance cross-platform apps, architecting real-time systems, and integrating secure fintech solutions including payment gateways and encrypted communication.

Experienced in Flutter, Node.js, and modern web technologies, with a strong focus on clean architecture, performance optimization, and user-centric design.

Passionate about solving complex problems, participating in global hackathons, and building systems that scale to real-world impact.

=====

WORK EXPERIENCE

=====

Smart Computing Pvt Ltd

Mobile App Developer

Aug 2025 – Present

- Built and scaled a fintech super app ecosystem integrating payments, chat, and subscription workflows.
- Integrated Stripe, Bridge, and PayCrypto gateways, ensuring secure and seamless financial transactions.
- Developed encrypted real-time communication using WebRTC, improving user engagement and system reliability.
- Designed modular and scalable architecture enabling rapid feature expansion across multiple app modules.

7 Skies Solutions

Junior Mobile App Developer

Apr 2024 – Mar 2025

- Delivered 8+ cross-platform mobile applications for Android and iOS, including a product exceeding 10K+ downloads.
- Optimized application performance and maintainability by 70% through advanced state management and architecture improvements.
- Integrated REST APIs, Firebase, MongoDB, and SQLite to enable real-time data synchronization across applications.
- Led a team of 5 developers in building a service marketplace app, successfully deploying it to production.

Tourism Development Corporation of Punjab

Technical Intern

Mar 2025 – Jun 2025

- Developed the official departmental website, significantly improving digital presence and accessibility.

- Enhanced the e-ticketing system by improving performance, usability, and system efficiency.
- Contributed to inventory management system improvements, streamlining operational workflows.

DataInsight Lab FAST NUCES

Mobile App Developer (AI-focused)

Jun 2025 – Aug 2025

- Built an AI-powered video ad generation application using Flutter and modern AI workflows.
- Developed a Node.js backend with secure REST APIs to handle scalable mobile transactions.
- Integrated Stripe payment system to enable secure and reliable in-app payments.
- Applied clean architecture principles to ensure maintainability and scalability of the system.

=====

PROJECTS

=====

Beindpower Super App

- Fintech ecosystem with payments, subscriptions, and chat
- Scalable modular architecture

Vaihok Super App

- Financial transactions and secure chat system

Goffix

- Real-time service booking platform
- Firebase + Provider
- 1K+ downloads, 4.5 rating

4DOST

- Local business discovery platform
- 10K+ downloads
- MySQL + GetX

=====

SKILLS

=====

Frontend:

- Flutter
- React.js
- Next.js

Backend:

- Node.js
- REST APIs
- WebSockets

Databases:

- Firebase
- MongoDB
- MySQL
- PostgreSQL

Architecture:

- Clean Architecture

- MVVM
- Repository Pattern
- Bloc / GetX / Provider

Specialized:

- Stripe
- WebRTC
- Real-time systems

=====

EDUCATION

=====

Bachelor of Science in Computer Science

The Islamia University of Bahawalpur

2021 – 2025

CGPA: 3.5 / 4.0

=====

ACHIEVEMENTS & CERTIFICATIONS

=====

- CS50x Puzzle Day 2024
- AI Agents Hackathon (lablab.ai)
- Meta Hacker Cup 2024
- CALICO Fall 2024

=====

KEY METRICS

=====

- 10K+ App Downloads
- 8+ Apps Delivered
- 70% Performance Improvement
- Led Team of 5 Developers
